2D CHARACTER ARTIST

ABOUT ME

Creative and detail-oriented 2D Character Artist with professional experience in creating stylized character artwork, specializing in anime, chibi, and pixel-art styles. Skilled in developing characters from concepts, briefs, and visual references while maintaining consistent anatomy, proportions, expressions, outfits, and visual identity. Experienced in creating character poses, variations, clean line art, and polished final illustrations. I enjoy transforming ideas into visually distinctive characters and continuously refining my work to meet creative and production requirements.

EXPERIENCE

2D Character Artist winklin

jan 2026 - present

- Create original and stylized 2D character artwork for professional projects, including anime, chibi, and pixel-art styles.
- Develop characters from creative briefs, client requirements, and visual references while maintaining consistent anatomy, proportions, facial features, outfits, and overall design.
- Produce character poses, expressions, variations, and illustrations tailored to specific project requirements.
- Adapt existing character designs into different poses, perspectives, outfits, art styles, and visual variations while preserving character identity.
- Create clean line art, detailed character illustrations, and polished final artwork suitable for digital and commercial use.
- Design and refine character clothing, accessories, hairstyles, facial features, and other visual elements.
- Incorporate feedback and make iterative revisions to improve artwork according to project and production requirements.
- Collaborate with team members to maintain visual consistency, meet creative specifications, and deliver artwork within project deadlines
